TIE AND DYE TRAINING HELD AT MILE 46 HEALTH CENTRE ON 13TH FEBRUARY 2016

The training was facilitated by BasicNeeds field staff and a stabilized project beneficiary, Christine Angila. The training started with a word of prayer from Mark Maranko. Joan Kufwafwa (Field Assistant for BasicNeeds) welcomed all the members and thanked them for sparing time to attend the training. She told the members that the aim of the training was to equip them with skills that can help them later in life, as a group or as an individual, that wants to set up a tie and dye business. She then welcomed the trainer Mrs. Christine to take the group though the training.

Christine started by outlining what one needs to do the process of tie and dye successfully. She said that one needs the following;

- Cotton material cut into required size ready to be dyed
- Caustic chemical used for mixing colors
- Dye

- Hydrosulphate chemical
- Gloves
- Thread, wool/bladder (used for tying the material before dipping them into different colors
- Polythene paper
- Water (hot and cold)
- Soap
- Basin, small buckets used for mixing the colours, 2 big buckets.

PROCEDURE

- Tie the fabric (material) to the required pattern.
- Soak in cold water for 5 minutes.
- Remove from cold water and squeeze.
- Pour 1 litre of hot water in a bucket.
- Add 3 tablespoons of caustic and stir it well.
- Add 1 tablespoon of dye and continue stirring, then add 2 tablespoons of hydrosulphate and stir till well mixed.
- Dip the fabric into the bucket and keep it there for 10-15minutes.
- Remove from dye bucket, un-tie it and air it for 5-10minutes.
- Rinse the fabric in hot soapy water then rinse in cold water.
- Finally, dry in the shade then iron the fabric for best results.

The following photos show the procedure.

Participants holding their fabric ready to start tying them in two different patterns.

Small buckets containing different colours to be used in the dying process.

Trainer with the participants helping them to tie their fabrics for desired patterns.

Participants dipping the fabric in hot water before dying them

Participants dipping the fabrics in different colors to dye them as they desire.

LIST OF PARTICIPANTS.
